galkahana bump up version [publish binary]		Latest commit 4806649 10 days ago

📁 samples	done, NPM INSTAL MOFO HUMMUS!!!111	4 years ago
📁 src	correction to opentype font reading that has the max count of glyphs	10 days ago
📁 tests	AES support [publish binary]	24 days ago
📄 .gitignore	add .keep for pull request tests	3 months ago
📄 .travis.yml	pages parsing correction and new node version	2 months ago
📄 LICENSE	license correction	4 years ago
📄 PDFRStreamForFile.js	lets try the rest in one time now	a year ago
📄 PDFStreamForResponse.js	lets try the rest in one time now	a year ago
📄 PDFWStreamForFile.js	lets try the rest in one time now	a year ago
📄 README.md	revamped readme. iguess [publish binary]	11 months ago
📄 binding.gyp	initial object parser commit	9 months ago
📄 hummus.js	lets try the rest in one time now	a year ago
📄 package.json	bump up version [publish binary]	10 days ago

📖 **README.md**

HummusJS

NPM version `build passing`

Welcome to HummusJS.
A Fast NodeJS Module for Creating, Parsing an Manipulating PDF Files and Streams.
Documentation is available here.
Project site is here.

If you are looking for a C++ Library go [here](#).

If you prefer to create and manipulate PDFs using a cloud service, check [here](#).

You can contact via the issues section in this project, or at gal@pdfhummus.com. I provide listening, consulting, and the occasional project assistance/implementation.
